ARC & FLAME RESISTANT

FR DOUBLE LAYER NINJA MASK

6.2 oz. | FR Cotton Jersey

 **6.2 OUNCE** **CAT 2** **NFPA 70E** **NFPA 2112**
8cal COMPLIANT COMPLIANT

The Double Ninja Mask was purposely designed for people and companies who want to have the protection of a “double layer” with the comfort of a single layer mask. This mask has three components: our lightweight “2nd Gen” arc & flame-resistant cotton, FR Aramid thread and a code compliance stamp. The front of the mask is double layered and just before the ear loop it returns to a single layer.

Unlike the mass produced multifold ‘surgical style’ masks, the Double Ninja has 4-way stretch, along with minimal seams, allows the mask to conform to the contours of your face offering both comfort and maximizing protection with a snug fit.

The Double Ninja is backed by our unconditional Replace or Repair Warranty. It can be easily laundered at home without damage or change to its shape, visit tinyurl.com/benchmarkfrwash for complete instructions.

COMPLIANCE

ARC Rating (ATPV) = 8 cal/cm²
NFPA 70E Compliant
CAT 2 (HRC 2)
