

3M PPS Standard Kit Mixing Cups & Collars - 16001

The 3M PPS Standard Kit Mixing Cups & Collars are part of the very popular and versatile 3M Paint Preparation System (PPS). The mixing cups and collars can be used with this system to mix and dispense paint efficiently.

You can also use the standard liner with measurements, which is part of the PPS, to ensure correct proportions.

The 3M PPS Standard Kit Mixing Cups & Collars has a capacity of 650 ml and can help improve productivity by simplifying all the processes from mixing to the disposal of remnants.

This 3M PPS Standard Kit Mixing Cups & Collars can fit perfectly into the PPS spray gun, which is designed to hold paint at any angle, for the best coverage. Complete all your paint jobs successfully with this versatile cup and paint system.

Standard size, hard cup that supports and holds the PPS standard flexible liner, part number 0401.

650 mL capacity
