

3M™ Versaflo™ Battery Item ID Change Notification

January 2025

Dear Valued Customer,

This notification is to inform you of the transition of existing 3M ID numbers to new 3M ID numbers for the 3M™ Versaflo™ TR-630 and TR-632 batteries. The product, performance and usage are the same with the new ID batteries. We kindly ask you to refer to the table below for the ordering information and approximate transition times.

In order for 3M to effectively manage the product transition, we may need to action certain open POs in the system. Some open orders will need to be updated to the new ID numbers either by updating existing PO's or canceling and entering new PO's. Please contact your customer service representative for further action.

Once the new 3M ID numbers are in full effect, we will transition and ask that all orders use the new product information.

We thank you for your business.

Current 3M ID	New 3M ID	Approximate availability timing of NEW 3M ID

Should you have any questions, please contact your local Sales Representative or 3M Personal Safety Division Technical Service at 1-800-243-4630. In Canada, please contact Technical Service at 1-800-267-4414.

Sincerely,

3M Personal Safety Division

Warning: These respirators help protect against certain airborne contaminants. Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134, including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For correct use, consult supervisor and User Instructions, or call 3M PSD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.
