

# LEAN INFORMATION BOARDS EXPAND SHOP FLOOR COMMUNICATION

## Use lean communication boards to:

- Track key performance indicators
- Post schedules and assignments
- Submit ideas and work requests
- Provide lean activity updates
- Report audit / inspection results
- Recognize achievements

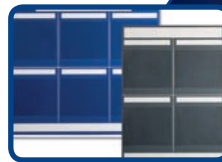

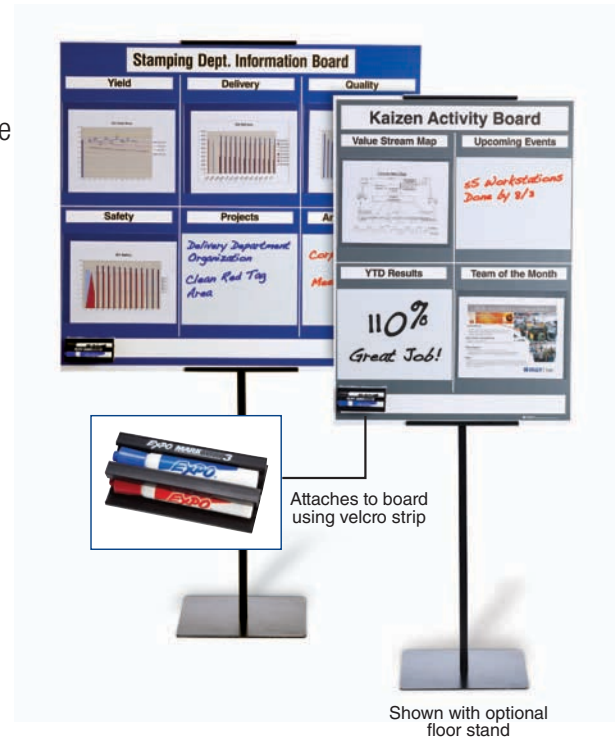

## Durable, yet light weight

- Made of 1/4" -thick extra heavy duty preboard with polystyrene foam core
- Withstands industrial environments without warping, cracking or fading
- For indoor use only

## Customize displays to your needs

- Two colors and two sizes available – 4 or 6 panel format
- Add headings and subheadings using a permanent marker or Brady industrial label printer
- Print on Brady clear vinyl for a clean, professional look. Using Brady repositionable vinyl also makes it easy to change headings and re-purpose boards for other uses
- Adhere either document holders or dry erase panels
- Document holders allow you to easily display charts, graphs and spreadsheets created on your computer
- Use dry erase panels for displaying metrics and schedules that are frequently updated, and for recording shopfloor improvement ideas and maintenance requests

## Custom Lean Boards

Brady can also custom print headings, company logos, etc., to customer specifications. Turnaround is fast – ships within 3-5 days. Call Brady Customer Service at 888-292-3946 for ordering details.
