

Maxima THE ONE-PRODUCT DISINFECTANT CLEANING SOLUTION

3

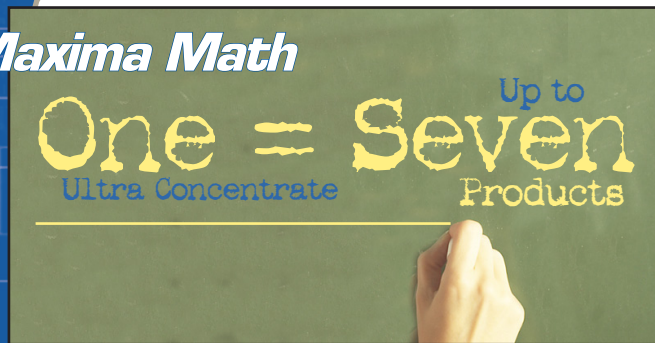

- Cleans
- Disinfects
- Deodorizes

Functions

Cleans, disinfects and deodorizes surfaces in one pass. EPA-Registered, hospital-grade, effective against a broad range of pathogenic organisms, including MRSA, HBV and HIV-1 (see back page for complete list). Deodorizes by eliminating the odor at its source.

DISINFECTANT CLEAN PLUS AN ULTIMATE DEODORIZER

Maxima Math

One Maxima product replaces as many as seven products in a facility.

- Unique proprietary disinfectant cleaner
- Mildly acidic, lemon-like pH cleans surfaces better than conventional neutral or alkaline disinfectants

Disinfectant Cleaner...PLUS

Cleans and disinfects all washable hard non-porous surfaces — floors, walls, counters, partitions, painted surfaces, etc. Will not harm floor finish. HBV, VRE, MRSA, HIV-1 effective, thus eliminates the need for additional specialty products.

Brightwork Cleaner

Cleans and brightens fixtures — chrome plate, handles, faucets, brushed aluminum and stainless steel. Eliminates the need for specialty bright work cleaners.

Glass Cleaner

Cleans windows and mirrors. Its slightly acidic formula is non-filming and cleans without streaking.

Bowl Cleaner

Use in place of a non-acid bowl cleaner for daily cleaning. Its lemon-like pH works better than non-acid bowl cleaners. Helps retard the accumulation of hard water lime deposits and urine scale build-up without strong acids.

Lime & Soap Scum Controller

Helps control mineral and soap scum deposits on sinks, showers and other hard non-porous surfaces. Recommended for cleaning Hubbard tanks and whirlpool baths.

Neutralizing Winter Salts

Mildly acidic cleaner neutralizes and removes salt residue on floors — perfect for eliminating winter tracking.

Laundry Sanitizer

Add to final rinse cycle to sanitize laundry such as bedspreads, sheets, pillowcases, diapers, towels and other wet linens. Reduces the growth of bacteria.

Whispers of Spring Fragrance

New Fragrance

Maxima, the seven-in-one disinfectant cleaner, is now also available in a signature fragrance that denotes a hint of a spring floral day — Whispers of Spring. Not over powering but just right, the subtle spring fragrance lingers as it whispers, "This place is clean".

Also available in:

- Sassafras — a mild, clean, traditional scent that has been its fragrance signature for the past 20 years
- No Perfume, No Dye — for areas where perfume and/or dye are not desirable

The Maxima Family

Hospital-Grade Disinfectant

Maxima is a one-step hospital-grade disinfectant cleaner. Staphylocidal, Pseudomonacidal, Virucidal and Fungicidal. **Complies with OSHA's bloodborne pathogens standard.** Use in hospitals and other facilities where controlling the risk of nosocomial infection is of prime importance. EPA registered.

The Unsurpassed Efficacy of Maxima

Maxima is effective in hard water up to 400 ppm hard water (calculated as CaCO3) in the presence of 5% organic serum. Maxima has been evaluated by the AOAC use-dilution test and found to be effective against the following pathogenic organisms:

*Adenovirus Type 2 • *Adenovirus Type 4 • Aspergillus Niger • *Avian Infectious Bronchitis • *Avian Influenza A/ Michigan/2/79-H1N9 • Brevibacterium Ammoniagenes • Candida Albicans • *Canine Distemper • Enterobacter Aerogenes • Enterobacter Cloacae • Enterococcus Faecalis-Vancomycin Resistant • Escherichia Coli • *Feline Leukemia • *Feline Picornavirus • *HBV (Hepatitis B Virus) • *HCV (Hepatitis C Virus) • *Herpes Simplex Type 1 • *Herpes Simplex Type 2 • *HIV-1 (AIDS Virus) • *Infectious Bovine Rhinotracheitis • *Influenza Type A/Mich. • Klebsiella Pneumoniae • Proteus Mirabilis • Proteus Vulgaris • Pseudomonas Aeruginosa • *Rubella Virus, Vaccine Strain • Salmonella Choleraesuis • Salmonella Schottmuelleri • Salmonella Typhi • Serratia Marcescens • Shigella Dysenteria • Shigella Flexneri • Shigella Sonnei • Staphylococcus Aureus • Staphylococcus Aureus (MRSA) • Staphylococcus Epidermidis • Streptococcus Faecalis • Streptococcus Pyogenes • Trichophyton Mentagrophytes • *Vaccinia

*Virucidal
