

Clorox Commercial Solutions®

Clorox® Disinfecting Wipes

America's number one wipe* is now better than ever!

Easy One-Step Cleaning and Disinfecting

Clorox® Disinfecting Wipes are a convenient, effective solution for cleaning and disinfecting a wide variety of surfaces with just one wipe.

Effective Disinfection of Germs of Concern

Clorox® Disinfecting Wipes are EPA-registered to kill 99.9% of illness-causing germs, including the viruses that cause cold and flu†, with efficient contact times.

Specially Formulated to Use on a Variety of Surfaces

Clorox® Disinfecting Wipes combine a thick, textured wipe with Clorox's unique clear-drying formula so you can clean a wide variety of surfaces including glass, stainless steel and more....

*IRI Dollar Share, FDMW, 52 weeks ending 4/22/2012

†See label for organisms. Use as directed on hard, nonporous surfaces.

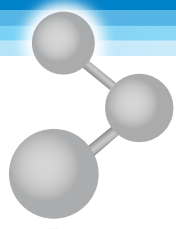

- Easy one-step cleaning and disinfecting
- Effective disinfection of germs of concern
- Specially formulated to use on a variety of surfaces

THE COMPLETE CLEAN

DISINFECTING CLEANING

Science of Clean

Powerful, Versatile

Clorox® Disinfecting Wipes are 2–3 times faster at cleaning tough soap scum and bathroom soil than several of the leading competitive wipes brands.¹ Clorox® Disinfecting Wipes combine a thick, textured wipe with a unique clear-drying formula so you can efficiently clean a wide variety of surfaces, including glass and finished wood.

Faster Disinfecting Times

When you are using disinfecting wipes to clean all those high-touch germ hot spots, you can't afford to use products that require long dwell times. Who has time to wait and reapply product as needed? Clorox® Disinfecting Wipes have faster contact times than competitive wipes for all bacteria and most viruses.²

Registered to Kill More Germs

Don't you want the peace of mind of knowing that the disinfecting wipe you're using is killing those bacteria and viruses that concern you most? Clorox® Disinfecting Wipes are EPA-registered to kill more germs than competitive wipes, as well as killing key germs of concern.

Kill Claims Effective against more hard-to-kill germs	 Disinfecting Wipes
Total Kill Claims	16
Number of food-borne pathogens product is registered to kill	4
Registered to kill both viruses that are leading causes of the common cold	Yes
Registered to kill Rotavirus, the leading cause of diarrhea in children ³	Yes

Economics of Clean

Efficient One-Step Cleaning and Disinfecting

Did you know that several of the competitive disinfecting wipes require a separate pre-cleaning step before they can be used for general disinfection purposes? What a bother and what an expense! Clorox® Disinfecting Wipes effectively clean and disinfect in just one economical step.

Saves Time and Money with Greater Surface Disinfection Coverage

Clorox® Disinfecting Wipes deliver more surface disinfection area vs. competitive wipes. With wipes that stay wet long enough to kill 100% of bacteria and virus claims, you use fewer wipes to effectively get the job done.

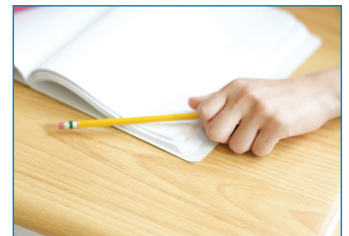

Saves Time and Money	 Disinfecting Wipes
Surface wet time per wipe*	3.9 min
Longest contact time on label	4 min
Pre-cleaning required? If so, need one more wipe	No
Total # of wipes required to disinfect 4 sq. ft.	2

Versatile and Compatible

Clorox® Disinfecting Wipes can be used almost anywhere to clean and disinfect. They are even suitable for use on wood†, acrylic, stainless steel, vinyl and glass. Clorox® Disinfecting Wipes combine a thick, textured wipe with Clorox's unique clear-drying formula so you can clean almost every hard surface you can think of.

*Surface size = 4 sq. ft.

†Not recommended for use on unfinished, unsealed, unpainted, waxed, oiled or worn flooring. Test a small area first.

Use as directed on hard, nonporous surfaces.
