

These punches should be used on an Osborne No. #603 Cutting pad.  
The use of an Osborne wooden mallet or rawhide hammer is recommended.  
Steel hammers are not recommended.

**ARCH PUNCH** - Original and correct design for cutting

### Osborne No. 149

Meets Government Standards

Osborne arch punches are drop forged in one piece from the finest special carbon steel in sizes from 1/8" to 2-1/8" diameter. Larger sizes are made with our properly engineered two piece welded construction. A unique feature of the Osborne arch punch is the inside taper which permits the punchings to clear easily through the barrel. Punches have fully polished barrel. The cutting edge is fully hardened all the way through and properly finished to provide long use trouble free punching.
