Shelving & Racks

Superior Iron Grip strength automatically provides crucial 4-point reinforcement to shelves.

The tapered stud engages a sloped, key-shaped hole in the upright for instant binding strength.

Built to last. Studs are plated; other parts have oven-baked enamel surfaces, and all formed from prime rolled steel.

Durable 18-gauge shelves feature box-formed edges on all four sides. Adding 13-gauge, U-formed channels (3/8" x 13/32") provides extra strength reinforcement on heavily loaded shelves. For heaviest use, also add end and center channels. Angles (1" x 1") made of 1/8" thick carbon steel provide optional reinforcement at the ends.

High visibility panels

Equipto furnishes high visibility white back and end panels on Iron Grip shelving units, regardless of the color of other. Standard color on Iron Grip shelving is office gray with white panels. Optional decorator colors will also be shipped with white panels unless you specify otherwise.
