

3010

RETRACTABLE TOOL LANYARD

The Squids® 3010 Retractable Tool Lanyard is a lightweight and extremely durable tethering solution designed to mount to your belt or the webbing of a fall protection harness to reduce snag hazards. This lanyard can tether hand tools weighing up to 5lbs / 2.26kg to prevent falling objects when working at-heights.

Features

- Patented lightweight aluminum carabiner with double action self-locking gate connects to tool
- Industrial-grade ABS plastic housing with a cut-resistant Dyneema® retractable cord
- Trigger switch locks cord into fixed lengths to take the tension out
- Mount to belts or fall protection harnesses up to 2in / 5cm wide and .38in / 1cm thick
- Impact indicator lets user know if a drop has occurred
- Third party certified to meet the ANSI/ISEA 121-2018 Standard

| ITEM # | SIZE | STYLE | COLOR |
|--------|-------------|------------------|-------|
| 19310 | 48" (123cm) | Single Carabiner | Black |

THE SAFEST WAY TO GET HIGH

When it comes to dropped objects prevention, luck is bad policy. Gravity's a relentless little rascal and "never happened before" has nothing to do with tomorrow. Drops WILL happen. The damage they cause is up to you.

If a tethering solution doesn't meet the standards of ANSI/ISEA 121-2018, it has no business on the jobsite. Find confidence in compliance with Squids® Tool Tethering Systems.

Sometimes it's ok to think inside the box. Our Trades Tethering Kits have all you need to tether the most common tools for your job, complete with foolproof step-by-step instructions.
