

8 PLY FLEXOGEN

Gilmour Flexogen™ has long been regarded by the industry as a gold standard for quality and durability. With its 8-ply, polyester cord reinforcement and high burst-strength construction of 500 PSI, this hose is built to last. The Flexogen™ Advantage construction provides superior flexibility and kink-resistance. The Flow Guard Plus protective collar helps resist kinks at faucet, while the crush-resistant Full-Flo machined metal couplings provide a durable and tight seal. Flexogen™ hose features polished surface treatment for superior resistance to dirt-collecting abrasions. Made in the USA and backed by a lifetime guarantee, Flexogen™ is indeed “The Last Hose You’ll Ever Buy”.
