

BENDER, ELECTRIC CONDUIT (855GX)

Bender, Electric Conduit - Programmable (120 VAC, 20A)

Cat No: 52055927

UPC No: 783310125792

Description

- The 855GX is Greenlee's most advanced programmable bender
- The 855GX has all the capabilities to accomplish the most complicated bends with ease and speed. It can bend 3/4" Rigid (in either the 1" Rigid or 1" EMT shoe grooves) and 1" to 2" Rigid, EMT or IMC conduit with just one shoe featuring smart sensors that know exactly what diameter conduit and type you are going to bend and automatically factors spring-back for any angle
- This bender comes with both a robust pendant controller and a state-of-the-art LCD interface that allows the operator to easily program, save and transfer multiple bends via a USB drive making this unit invaluable on jobs that demand many types and high quantities of bends

Specifications

- Accessory : 12582 Shoe Group, 1/2" - 2" PVC Coated Rigid (855GX)
- Amperage Rating : 20 AMP GFCI Protected Receptacle
- Bend Radius : 7.000" (177.800 MM) - 9.000" (228.600 MM) (EMT, IMC Rigid) For 1.000" - 2.000" Shoe Size
- Capacity : 3/4" - 2" Rigid, 1" - 2" EMT, IMC
- Standard : C/US UL Listed
- Sub Brand : IntelliBender
- Type : Programmable
- Voltage Rating : 120 VAC
