

HeatArmor®

# 5054

HexArmor®

Built to handle extreme heat applications such as MIG welding, HexArmor's HeatArmor® 5054 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5054 features a cowhide leather exterior with our revolutionary, long-lasting HeatHide® leather treatment technology while an interior HPPE/polyester/steel liner delivers 360° cut protection – allowing you to switch applications without switching your gloves. Plus, back-of-hand goatskin reinforcements deliver extra strength and durability while working with MIG or flux core welding guns specifically.
