

HeatArmor®

5058

HexArmor®

Built to handle extreme heat applications such as TIG welding, HexArmor's HeatArmor® 5058 gloves are purpose-built with industry-leading protection, fit, comfort, and longevity.

The 5058 features a cowhide leather exterior with our revolutionary, long-lasting HeatHide® leather treatment technology while an interior HPPE/polyester/steel liner delivers 360° cut protection – allowing you to switch applications without switching your gloves. Plus, a thin outer .6mm pearl grain goatskin delivers ultimate tactility and dexterity for more precision work on the job.
