

Experience the improved design and convenient upgrades we've made to our 300 Series Die Grinders!

301B Air Angle Die Grinder

As part of an expanded line of long-lasting, economical, general purpose die grinders, the 301B delivers a number of beneficial features in one compact package. Right-angle configuration provides easy access to tight spots, so you can grind, break sharp edges, deburr, port, and polish virtually anywhere!

307B Air Straight Die Grinder

Durable, reliable, and cost-effective, our 307B general purpose die grinder is designed for porting, light weld grinding, smoothing sharp edges, deburring, and polishing. Its compact design offers exceptional maneuverability, versatility, and accessibility for difficult-to-reach spots.

- ▶ Powerful motor delivers 0.25 hp (0.19 kW):
 - 301B at 21,000 rpm free speed
 - 307B at 28,000 rpm free speed
- ▶ Durable ball-bearing construction improves balance, reduces vibration, and ensures a longer tool life.
- ▶ Strong aluminum housing withstands tough operating conditions.
- ▶ Small and lightweight design provides easy operation, and greater access to tight spots.
- ▶ Easy-to-use, integral safety-lock throttle lever prevents accidental start-up.
- ▶ Front exhaust helps keep work surface clean.
- ▶ Tool comes with 1/4" and 6 mm collets and two wrenches.
