

JOB SITE TOOL STORAGE

Storagemaster® Chests

- 16 Gauge, fully arc welded steel construction for extra strength and weather protection
- Rugged 1" steel pipe handles fold away; recessed channels add strength to side of box
- Full length 11" wide shelves with 3" lips are strong enough to handle a heavy load
- Dual gas spring cover supports provide easy one-handed operation of cover
- Shield protects gas spring from tools and debris
- Hidden interior channel adds strength to the front, helps resist pry-bar forced entry
- Extensive channel reinforcing adds strength and rigidity
- 3½" High, 12 gauge skids raise unit for easy forklifting
- Bi-fold cover folds completely out of the way
- Three point latching provides extra theft protection
- Recessed Watchman® IV lock system protects padlock from hacksaws and bolt cutters

Include installation hardware.

Welder's Box & Heavy-Duty On-Site Chests

Welder's Box - A small, portable box designed to provide locked storage in almost any location. Ideal for trucks, trailers, workshops and garages. Rugged 16-gauge steel construction. Color: Brown
650990D - Has cut-out for storing tools still connected to fuel tanks. Welded heavy-duty hasp for using padlock. Fold-away lifting handles.
651990D - Chest provides portability in a compact, highly secure storage box.

Heavy-Duty On-Site Chests - The industry's first breakthrough design; now incorporate end load capability. Flat exterior design eliminates protruding handles. Handles are extra tall and the deep recess areas prevent pinched fingers. Color: Brown

Unique Features Include:
Site Vault™ Security System

- 3-Point locking engagement is virtually impossible to bend or pry open. Note: The 36" wide Mir's #1-652990 has a 2-point locking system
- Fluorescent orange tape indicates when the chest is unlocked, making it easy to check at night and from a distance
- Your padlock will be completely housed in a fully welded 12 gauge steel casing, making it impossible to knock out, cut or pry off during attempted break-ins

EZ-Loader™ Skid Bolsters

- Fork lift accessible from all sides making it easier to load and unload from trucks
- Bolsters are made from one-piece 7-gauge steel that resists damage when chest is dropped
- Optional 4" and 6" casters can be installed on the pretapped bolsters

Tray

Welder's Box

Heavy-Duty Chest

Grip-Rite™ Recessed Lifting Channel

- Easy to grip the lid when wet or wearing gloves, and also provides extra lid reinforcement
- Recessed design eliminates protruding parts that could be damaged by passing equipment

Lid Design

- Lids are strong enough to support another loaded chest stacked on top
- Heavy-duty locking support arms are 1" wide and resist bending
- Heavily reinforced lid has a welded full width bolster that resists bending from cargo placed on top of the box and from attempted break-ins
- Rugged 14 gauge welded continuous hinge with ¼" steel pin and extra large 1" knuckles. The stacked and welded pin cannot be driven out
- Corner gussets

Piano Boxes

With Site-Vault™ Locking System & EZ Loader™ Skid Bolster

Piano Boxes provide superior security, and are equipped with patented Tilt-n-Stow™ hinged shelf. Heavy-duty 16 gauge steel construction has special reinforcements for superior strength and security. Bolt Cutter-Free Locking System protects padlocks from cutting and tools prying inside high strength steel lock housings.

- Heavily reinforced door has deep, extra-wide bolsters for superior strength and rigidity to resist break-ins. Extra heavy-duty 12 gauge steel flange on the bottom of the door overlaps the top rail of the body to prevent forced entry with pry bars or other tools
- Sidewall embossed handle recess adds tremendous strength
- Gas spring door lifts assist in opening and closing the door. Guards protect the springs from being damaged
- Lid overlaps body to keep rain out • Fully protected gas springs on lid
- Extra-wide flanges on the side walls and top rail provide superior strength for security and long-term durability
- Mir's #1-681990 and 1-682990 have two heavy-duty, 12" deep full-length storage shelves on the back wall to hold heavy equipment. Patented Tilt-N-Stow™ hinged lower shelf supports 500 Lbs. when lowered
- Shelf tilts up to gain approximately 12" of additional space for taller or wider equipment
- Mir's #1-683990 and 1-684990 have drop front steel mini ramps with nonskid strips that make loading and unloading easier by allowing tools to be rolled directly into and out of boxes without lifting
- Mir's #1-688990 has only one fixed shelf on the back wall
- Rain Drain™ system drains wind-driven rain from the lock housings to the outside to protect the interior and contents
- Extra-strong bottom bolsters support heavy loads • Tall design is ideal for moving with a forklift
- Optional 4" and 6" casters can be installed on the pre-tapped bolsters • Color: Brown
