

# RIDGID KNAACK

## Professional Storage Systems

KNAACK Manufacturing Company, the number one developer of professional storage equipment in the USA, manufactures a range of multi-purpose, heavy duty steel storage containers for use in the construction and industrial sectors.

The range consists of four main products:

- **JOBMASTER** chests;
- **STORAGEMASTER** chests;
- **JOBMASTER** cabinets;
- Rolling Work Benches.

**RIDGID KNAACK leads the world in construction site and industrial tool and material storage solutions.**

### Features

1. Available in various sizes and operable in diverse situations or locations.
2. Manufactured from 2.65mm thick high-grade steel with 1.5mm thick reinforcement in strategic areas.
3. Breakform channels and design increase strength.
4. All seams are fully welded and left unground for maximum strength.
5. Engineered design of overlap and interlock resists forced entry and prevents water penetration.
6. Recessed handles add strength and allow comfortable grip for safety.
7. Full-length piano hinges are punched and end welded to prevent removal.
8. 92mm High forklift skids are box-formed and folded at each end to prevent collapse. Pre-drilled for casters.
9. Patented "Watchman IV" lock system incorporates heavy-duty dead bolt latching and uses a single padlock.
10. Health and Safety features include bifold lids, gas struts, lock stays, forklift skids and recessed handles.
11. "Skafor" insurance approval.

Model 4830

**Strong  
Innovative  
Secure**

# JOBMASTER Chests

## Applications:

- On-site storage of construction related tools and equipment.
- Storage of tools and equipment on back of pick-up or flat bed trucks.
- Storage of tools and equipment in containers and office trailers, etc.

Model 4830

## Features

- Watchman IV lock system.
- 92mm High caster ready skids.
- Reinforced deep cover.
