

## Polarstar® SR Abrasives

- Designed for spot repair of dirt nibs or other surface defects in topcoat finishes.
- Allows for repair of small areas, without the need to sand the entire surface.
- Produces a scratch pattern that is easily removed by polishing.

**Packaged in packs of 100 or rolls of 500**

**Grit range: 3, 5 and 7 micron**

## Polarstar® Abrasive Discs

- Fast-cutting silicon carbide abrasive reduces sanding time for surface finishing.
- Designed for use on hard painted surfaces and tooling gelcoat.
- Offers excellent durability and resistance to clogging.
- Film-backed discs are suitable for both wet and dry sanding.

**Available in grip discs**

**Grit range: P600 - P1500**

## Q.Silver® Abrasive Discs

- Premium abrasives for applications ranging from metal, wood and fiberglass to topcoat sanding.
- Fast cutting abrasives have advanced non-loading properties for long life.
- Aluminum oxide grain from P80-P400, silicon carbide from P500-P1500.

**Available in discs, rolls and file sheets**

**Grit range: P80 - P1500**

## Bulldog Gold Abrasives

- Industry-standard performance for heavy stock removal through final finishing of metal, wood, gelcoat and painted surfaces.
- Heat-treated aluminum oxide delivers a fast, long-lasting cut.
- A special stearate coating is used to maximize resistance to clogging and loading.

**Available in discs, sheets and rolls**

**Grit range: P36-P800**

## Basecut® Abrasives

- An economical solution blending price and performance for general purpose sanding applications.
- Provides an aggressive initial cut with resistance to clogging and loading.
- Available in a full grit range from P40 through P1500

**Available in discs, sheets and rolls**

**Grit range: P40-P1500**
