

Desktop charger ASC multi 8, 14.4-36 V, "AIR COOLED", US/CND (627301000)

Order no. 627301000

EAN 4007430313331

Representative picture

- Fast, parallel charging of up to eight Li-ion and LiHD slide-on battery packs from 14.4 - 36 volts; no time loss when charging multiple batteries at once
- Patented "AIR COOLED" charging technology for all individual battery packs for fast, safe charging
- Robust aluminium housing with hook for space-saving wall mounting. With carry handle for mobile use
- With a lead (680 watts) for 8 full-power charging stations with process-controlled charging management for each individual battery bay
- Side on/off switch for the entire desktop charger
- Charge rate: each 3.0 A Charge time: approx. 30 minutes at 1.5 Ah; approx. 80 minutes at 4.0 Ah
- Space-saving and tidy solution, ideal for medium-sized and large industrial companies and large trade companies.
- Easy maintenance, requiring only annual BGVa3 test for lead cable, rather than 8 tests
