OVERVIEW

The Industry's First Utility Bucket Light, The M18™ Utility Bucket Light is going to revolutionize the way Power Utility Lineman work in a bucket by offering versatility with its three light modes, dual light head design that allows the user to spot and flood with one light or its Extreme Weather and High Voltage durability built for use in harsh conditions and environments. Its patented

spring loaded bucket clamp fits all size bucket lips and allows the user to move the light around the bucket effortlessly. The M18 Utility Bucket Light can run up to 4 hours on flood mode and spot/flood mode with an M18 REDLITHIUM™ High Demand 9.0 Battery and up to 6 hours on spot mode. Its high quality LEDs never need to be replaced and are backed by a limited lifetime warranty.
