M18 FUEL™ HACKZALL® (Tool Only)

5.0 (5) Write a review

The Milwaukee 2719-21 M18™ FUEL™ HACKZALL® is the fastest cutting and most powerful one-handed reciprocating saw. Utilizing a POWERSTATE™ Brushless Motor and a best in class 7/8" stroke length, the M18™ FUEL™ HACKZALL® cuts up to 50% faster than competitors. The compact, one-handed design provides superior control and the ability to make cuts in tight spaces. The dual gear counter balance mechanism

FASTEST CUTTING

Cuts up to 3X faster than competitive one-handed recip saws

Cuts up to 50% faster than competitive one-handed recip saws

Up to 4x lower vibration for smooth cut starts & one-handed control

Compact and lightweight design allows for easier cutting in tight spaces or overhead applications

POWERSTATE™ Brushless Motor: Increased cutting speed and power through the toughest applications

REDLINK™ Plus Intelligence: The most advanced system of cordless power tool electronics; provides optimized performance and overload protection using total system communication between tool, battery and charger

REDLITHIUM™ battery technology: Superior pack construction, electronics and performance deliver more work per charge and more work over pack life than any battery on the market

One-handed design provides superior control and versatility over standard reciprocating saws

7/8" stroke length removes more material with each stroke resulting in the faster cuts

Pivoting shoe provides constant contact with the work-piece resulting in smoother cuts with less bucking and vibration

REDLINK PLUS™ intelligence and POWERSTATE™ Brushless Motor combine to provide up to 3x longer tool life than competitive one-handed reciprocating saws

M18™ REDLITHIUM™ Battery packs, compatible with 125+ solutions

Never fails to impress me

I have owned and used this M18 Fuel Hackzall for almost a year now without ever once regretting my purchase. The flexibility the Hackzall brings to the job site is worth having both the traditional, D-handle style Sawzall, and the Hackzall around for whatever the job requires. This Fuel version is better than the original as well; it runs harder, longer. With one 5.0Ah M18 battery we can cut almost all day without missing a beat. Nothing beats the one-handed operation of

the Hackzall when forced to work in tight quarters or stretched out above one's head. Truly couldn't be more satisfied with this tool and it's performance.

Yes, I recommend this product.

I would buy this beast all day long

I'm a plumbing foreman and I supply my whole crew with this beast. Love it.

Yes, I recommend this product.

Excellent for tree limbing

I use this and an M12 hackzall to limb up the trees in my forest and they have cut through every branch. The M18 version cuts faster and runs a lot longer than the M12 version on a charge, but is heavier. I grab either one depending on the mood...

Great control and power.

This Fuel Hackzall is an awesome balance of power and one handed control. Great for overhead or detail work.

Sometimes you need the two handed Fuel Sawzall for heavy work and sometimes an M12 is great for r delicate work. 95% of the time we run this FUEL hackzall. Decent stroke, controllable with one hand, great power and run time. Highly recommend.

Yes, I recommend this product.
