## M18 FUEL™ Pipe Threader w/ One-Key™

5.0 (2) Write a review

Our M18 FUEL™ Pipe Threader w/ OneKey™ is the industry's first cordless pipe threader, revolutionizing the pipe threading process. The cordless pipe threader features AutoStop™ technology that senses severe kickback and automatically shuts the tool off. It also has a die head retention lock preventing die head ejection and a side grip to eliminate the need for you to hold the spinning die head when starting threads. The [Read More](#)

I recently had a chance to try this out and was thoroughly impressed. I cant believe that this is even possible in a cordless tool.. The amount of thought that went into its design is very admirable with this tool (as with most Milwaukee tools). I would love to get my hands on this to put it through it's paces, genuinely curious how many joints can be done per charge/battery. You can bet it will carry a hefty price tag, which will likely still be competitive to corded versions made by the competition. Which might keep it out of my tool box for a while sadly but when I do get my hands on it I will be posting updates with its performance etc

If you get a chance, do try this tool out - it's a beast!

Ryan

**Yes**, I recommend this product.

Occasionally i have to turn dead Terminators into spare parts. This device has been instrumental in achieving that. All i need is my Mega Sawzall a carbide laser blade and were off. And so is the t800's Arm!!

**Yes**, I recommend this product.
