

Milwaukee 5261-DE M12 Vacuum Assisted Dust Extractor

Part Number: 5261-DE

UPC: 0045242353408

Weight: 2.2

Description

INCLUDES:

- (1) 5261-DE Universal Dust Extractor
- (3) Side Handle Clamping Collar Assemblies
- (1) Replacement Nozzle

FEATURES:

- Universal Handle System: Compatible with major brands of SDS Plus rotary hammers
- Universal Vacuum Attachment System: Compatible with standard hose sizes: 1-1/4", 1-1/2", 1-7/8", 2-1/2"
- Adjustable Depth Stop and Ruler: Easily and precisely adjusts for accurate hole depths

The only universal tool of its kind on the market, the HAMMERVAC™ Vacuum Assisted Dust Extractor delivers a universal solution at low cost of ownership for dust extraction needs. The HAMMERVAC™ universal handle system allows quick set up and is compatible with major brands of SDS Plus rotary hammers and AC/DC hammer drills so users can drill safely into concrete and masonry without purchasing a new drill. It features a universal vacuum attachment system that is compatible with standard hose sizes of wet dry vacuums. This allows a standard wet dry vacuum to provide power and suction needed to remove dust as holes are drilled. Includes (3) side handle clamping collar assemblies, a replacement nozzle, adjustable depth stop and ruler.
