- Rubber Seal Ensures Dust Containment

SPECIFICATIONS:

- Optimized for Diamond Cup Wheels: 4" - 5"
- Use with all Milwaukee NEW (2017) Small Angle Grinders. Will NOT fit old models.

The Milwaukee 5317-DE SDS Max Dust Extraction Attachment provides users with a solution for the regulation on respirable crystalline silica dust (29 CFR 1926.1153). The 5317-DE SDS Max Dust Extraction Attachment is optimized for all drilling depths and any hole ranging from 1/4" and 2-3/4" in diameter. Its removable brush rings allows for increased tool life when performing larger dry coring applications. Attach to the Milwaukee 8960-20 8 Gallon Dust Extractor for a complete OSHA Table 1 compliant solution.
