Urea-formaldehyde polymer

Chronic Health Effects: For products containing Urea/Formaldehyde resin, dust generated from intended use may contain trace

amounts of formaldehyde which under excessive exposure may cause skin sensitization and airway

obstruction.

## SECTION 4: FIRST AID MEASURES

Eye Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of

the eyes by separating the eyelids with fingers. Get medical attention, if irritation or symptoms of overexposure persists.

Skin Contact: Immediately wash skin with soap and plenty of water.

Get medical attention if irritation develops or persists.

If dust from cutting or drilling is inhaled, remove the affected person to fresh air. If symptoms persist, get medical attention. Inhalation:

Ingestion: Accidental ingestion of this material is unlikely. If this does occur, watch person for several days to

Methods for containment: Containment of this material should not be necessary.

Methods for cleanup:

Shovel or sweep up for re-use or disposal. Avoid creating dusty conditions. Evaluate residue to determine if it is a hazardous waste by characteristic. Dispose of in accordance with Local, State, Federal and Provincial regulations.

## SECTION 7: HANDLING and STORAGE

Handling: Handle with adequate ventilation for nuisance dust.

Storage: No special storage conditions required.

Hygiene Practices: Wear suitable gloves and eye/face protection.

## SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION - EXPOSURE GUIDELINES

Engineering Controls: General dilution ventilation and/or local exhaust ventilation should be provided as necessary to

maintain exposures below occupational exposure limits.

Always WEAR SAFETY GLASSES or some type of eye protection when grinding. Eye/Face Protection:

Skin Protection Description: Protective gloves.

Long sleeved shirt and long pants.

Respiratory Protection: When workers are facing airborne particulate/dust concentrations above the exposure limit they must

use appropriate certified respirator

A properly fitted NIOSH approved disposable N 95 type dust respirator or better is recommended.

Other Protective: Use of this product may create elevated sound levels. Hearing protection should be worn where required (see OSHA 29 CFR 1910.134 and other applicable regulations).

General Hygiene Considerations: Handle in accordance with good industrial hygiene and safety practice.
