

T series (Competitor series heavy recycled content liners)

These bags are very popular among Jan-San Distributors, Paper Distributors & Redistributors who have the sales expertise and can liner knowledge to offer their customers a reduced gauge of heavy weight liners without sacrificing bag performance.

This is accomplished by matching the customer's usage needs to the maximum load capacity of each of our T bags. These value liners are produced with the same high quality recycled resins that we use in our popular PGB liners. The only difference is that these T Bags are manufactured to conform to the industry standards of acceptable gauge tolerances.
