

# Specialty Lighting

## Expand your specialty line (and your profits) with these new SYLVANIA products

When your customers require lighting that's a bit out of the ordinary, turn them on to the newest specialty bulbs from OSRAM SYLVANIA. These extraordinary products offer your customers more choices while providing you with expanded sales opportunities.

### Soft White Fan Light

The soft white fan light has been added to complete our fan bulb family. Customers now have a soft white alternative to our clear glass A-15 fan lights. Extremely vibration-resistant, A-line shaped fan bulbs are especially well-suited for rugged use because of our reinforced filament. Available in a medium base 60 watt 2-pack.

### 4 Watt White Night Light

When it comes to 4 watt Night Light bulbs, your customers now have more options. While pink and blue bulbs are perfect in the nursery, white is perfect everywhere. It provides a warm, soft glow; enhancing visibility and safety in bedrooms, baths, hallways and stairways. These versatile night lights are available in 2 and 4 packs.

### Inside Frost Appliance Light

Now your customers can opt for a softer light in their appliances with an inside frost appliance light. This also enables them to make a direct replacement since most

appliances come equipped with inside frost bulbs. The new frost version comes in a medium base and is available in a 40 watt blister single pack.

### Blacklight Blue Fluorescent

We've added three new fun reasons for customers to visit you. Our T8 and T12 fluorescent blacklight blue lamps will bring out that special aura from neon, glow-in-the-dark artwork and collectibles. They are also ideal for creating a ghostly atmosphere at

Halloween parties. Available in 15 watt T8 1-1/2', 20 watt T12 2' and 40 watt T12 4' varieties.

### Sunstick Fluorescent

For those customers looking for more sunshine in their lives, we've created the 40 watt T12 Sunstick. This bright fluorescent bulb produces a color temperature comparable to natural sunlight. It's the perfect way to cheer up a room.

For more information about SYLVANIA Specialty Lighting, contact your OSRAM SYLVANIA sales representative or call 1-800-LIGHTBULB (1-800-544-4828).
