

RPG Cord Grips with Pg Metric Threads

The Tuff-Seal RPG Series Cord Grips features a Pg metric thread so that it can mate with an internal Pg thread of an enclosure, machine or other equipment being connected. Features of these grips are identical to those of our standard RSR series aluminum cord grips on pages 6-9.

Thread Specifications

These are steel conduit thread per DIN 40430 (European Standard). Detailed thread specifications are available upon request. Taps are readily available. The Pg 7 fits a US 1/2-20 UNC thread.
