VB66	6" x 3/4" x .035"	6V/Straight	Plaster
------	-------------------	-------------	---------

King Cut® Fire, Rescue & Demolition Blades are made with the bi-metal unique® process for exceptional durability and have bright fluorescent yellow paint with high-contrast markings so they are easy to locate.

Fastcut™ General Purpose Bi-Metal Blades

are available in 18 varieties for a broad range of tasks with straight or tapered shapes, various lengths and special blade geometry for wood, metal and multi-purpose. Made with the Starrett-exclusive bi-metal unique® process for exceptional durability and long life.

Special Pallet Dismantling Blade has a rounded tip to prevent snagging and the size engraved directly on the blade.

Scroll Cutting Blades with bi-metal unique®

Carbide Grit Blades are ideal for ceramics and fiberglass.

Pneumatic Recip Blades for compressed air-powered tools widely used in auto body shops and metal fabricating facilities, manufactured with bi-metal unique® for fast cutting and long life.

bi-metal unique® Saw Technology provides 170% greater weld area that resists tooth breakage for longer life and faster cuts.
