LubricitTM Lubricant

Prevents Smearing.
Improves the Finish.
Lowers Costs.

1. Turn off machine.

2. Slowly rotate wheel by hand.

3. While rotating, direct a light spray of Lubricit into the wheel face.

Use with Nylox® wheels operating above the recommended surface speed. Directing a light spray of Lubricit into the face of the wheel permits the wheel to be operated at higher surface speeds and up to twice the normal load without smearing - while improving the finish.

Description	Ounces	Standard Pack	Item Number
