

# WRIGHT GRIP<sup>SB</sup> Scaffold Ratchet

## 3 TOOLS-IN-ONE

Ratchet, Hammer and Open-End Wrench

### Quality and safety at the highest level

The WrightGrip™ SB Scaffold Ratchet (Cat. #4488) is our new multi-purpose tool designed specifically for use in high, tight work areas when building scaffolds. This innovative tool features the following:

- 1/2" drive, 7/8" open-end ratchet end with socket for loosening/tightening nuts, bolts and fasteners.
- Soft-faced, non-sparking, interchangeable plastic hammer designed for fitting clamps and fasteners into place.
- 7/8" open-end wrench on the end of the tool's handle.

With scaffold builders working at such high levels—often at more than 100 feet—safety is a major concern. The WrightGrip™ SB Scaffold Ratchet gives pros an easy-to-use, 3-in-1 tool that eliminates the need to carry and handle extra tools.

Its 7/8" socket and open-end wrench is the perfect fit for today's standard scaffold clamps and fasteners. One tool does it all!

- Lightweight design—easy to carry, use and store
- WrightGrip™ design (Patent 6907805) for more torque, tool life and strength
- Open-head ratchet design (Patent D276125) for easy cleaning and quick directional switch
- Optional deep socket (#4528D) for final tightening on smaller scaffold diameters
- Interchangeable hammer inserts available in brass (#9039B) and steel (#9039M)
- Convenient lanyard ring—for attaching tool spiders
- Efficient tool for best value
- Manufactured with Wright Alloy™ steel
- 10-1/2" overall length
- Made in U.S.A.

*PERFECTING PERFORMANCE*

# PERFECTING PERFORMANCE™

Since 1927, Wright Tool has been manufacturing high-quality hand tools for professionals. The use of Wright Alloy™ steel, precision heat treating and advanced manufacturing techniques have resulted in products known for long life, durability and toughness.

Today, we manufacture a complete line of more than 4,000 professional-grade hand tools for the industrial, contractor, and MRO markets. All Wright-manufactured products are made in the United States and carry lifetime guarantees against defects in workmanship. Wright Tool is environmentally responsible providing eco-friendly processes such as our state-of-the-art in-house waste treatment facility.

We continually strive to make our products and processes even better. From the products themselves to our customer service and delivery, everything we do is evident in our mantra — “Perfecting Performance.”

## WRENCHES

Wright wrenches are ideal for applications ranging from standard nuts and bolts to aerospace fasteners. Our selection includes open-end, box, combination, adjustable and striking wrenches.

## Sockets, Ratchets and Attachments

All Wright sockets feature the patented Wright Drive® for more torque and less fastener damage. We offer double-pawl and flex-head ratchets, as well as attachments ranging from extensions and spinners to universals and flex handles.

## Impact Sockets

Our impact sockets are built stronger and tougher to withstand repeated loads from impact guns. They also feature a black finish to eliminate chipping.

## Torque Products

Designed for precision tightening in crucial applications, Wright torque wrenches are available in three styles: micro adjustable, dial and electronic. Other torque products include torque screwdrivers, torque multipliers and a torque tester.

## Industries Served

- Refinery
- Wind Turbine
- Oil Field/Derrick
- Mining
- Power Generation
- Steel Mill
- Power Delivery/Lines
- Bridge Building
- Structural/Iron Construction
- Road Building/Excavation
