HOLE DOZER™ WITH CARBIDE TEETH HOLE SAWS

OVERVIEW

MILWAUKEE® HOLE DOZER™ with Carbide Teeth Hole Saws provide 50X life in extreme multi-material cutting applications when compared to bi-metal hole saws. Built utilizing a tough carbide grade combined with a durable 4 TPI design, yielding the best tooth durability and life in stainless steel, abrasive materials and fastener-embedded wood. Cutting depth is 1.62", allowing clearance to handle cuts in all materials. With a Thermostat Coating to reduce friction and drag during cutting, users benefit from faster cutting and increased cordless efficiency. Slug removal is made easy with the PLUG JACK™. The PLUG JACK™ enhances user productivity by providing best access and leverage to remove material slugs. HOLE DOZER™ with Carbide Teeth hole saws are made in the USA.

FEATURES

- 50X Life in extreme multi-material applications (Stainless Steel, Abrasives, Fastener Embedded Wood)
- 4 TPI Design gives best durability and life in extreme multi-material applications
- Thermostat Coating reduces friction and drag, increasing overall speed and cordless efficiencies

BIG HAWG™ WITH CARBIDE TEETH HOLE SAWS

OVERVIEW

MILWAUKEE® BIG HAWG™ with Carbide Teeth is first-to-market in providing extreme life and durability in both nail-embedded wood and abrasive material applications. Utilizing advanced carbide technology to completely redesign the tried and true BIG HAWG™ hole saw, the new BIG HAWG™ with Carbide Teeth gives users 50X life in demanding applications with the ability to cut 1000+ more nails. 10X larger carbide teeth rip through materials 5X faster than any hole saw on the market, while oversized slots make for easy plug removal and chip ejection.

FEATURES

- 50X Life in nail-embedded wood and abrasive material applications
- 3 Tooth Design with 10X More Carbide cuts 1000+ more nails
- Carbide Tipped Multi-Material Pilot Bit for increased material versatility
