

Teroson® Terostat® Orb 10000™
Heat curing, rubber-based sealer in tape form
 Provides excellent performance against typical corrosion conditions such as salt spray and cyclic corrosion tests. Adhesion is excellent on substrates such as cold rolled steel and galvanized steel.
P/N Package Size
 Call your local Henkel representative for more information

Teroson® Terostat® 06-1273™
Heat curing, high wash-off resistant sealant
 A pumpable, 200% expansion, weld-through, gas resistant controlled expansion body shop sealer designed for oily or galvanized steel.
P/N Package Size
 768333 Please call for information

Teroson® Terosol® 6302™
PVC-free, heat curing, high temperature sealant
 Heat cure, solvent-free, polyacrylic plastisol used in high heat (200°C) where resistance to heat degradation and color change is important. Typically cured by heat from paint bake cycle. Physical properties minimally affected by high temperature exposure during paint bake.
P/N Package Size
 882425 Please call for information

Teroson® Terostat® Orb 13000™
Heat curing, paintable sealant in tape form
 A heat curing, paint shop applied, tacky magnetic paintable sealer supplied in tape form. The material is designed to seal metal seams on most e-coated metal surfaces.

Loctite® Silatech™ RTV Silicone
Acetoxy RTV silicone
 Designed to bond to various materials and provide a tough, flexible, waterproof and oil-resistant seal.
P/N Package Size
 32389 300 ml cartridge - clear
 32390 300 ml cartridge - black
 32391 300 ml cartridge - white
 32392 300 ml cartridge - aluminum
 32394 300 ml cartridge - red

Loctite® 5510™ Elastomeric Adhesive/Sealant
Primerless adhesion to multiple substrates
 High strength, high elongation elastomer used for bonding and sealing a wide variety of substrates.
P/N Package Size
 1073344 300 ml cartridge - white
 1073346 300 ml cartridge - grey
 1073347 300 ml cartridge - black
