Your Enclosure Source®

MODULAR ENCLOSURE ACCESSORIES

End Plates

Designed to provide a sealed cover for the open end of a modular enclosure. Provides additional wiring space along the side of the enclosure. Gasket and mounting hardware is included. Made of heavy gauge steel and powder coated ANSI-61 gray.

Barrier/Flat End Plates

Designed to serve as a barrier between two modular enclosure sections. Also can be used to provide a lower profile sealed cover for the open end of a modular enclosure. Mounting holes. Gasket and hardware is included. When using as barrier between two enclosures, a SCE-MODGK is needed. Made of heavy gauge steel and powder coated ANSI-61 gray.

Flat End Plates

Designed to provide a lower profile sealed cover with a finished appearance for the open end of a modular enclosure. Studded for easy installation. Gasket and mounting hardware is included. Made of heavy gauge steel and powder coated ANSI-61 gray.

Gasket and Bolt Kit

Designed to be used as an additional gasket or to replace gasket kits when changing modular enclosure configurations. Includes oil resistant gasket and zinc coated nuts and bolts. Required when bolting one enclosure to another.

Removable Wire Cover

Designed to cover the wires in the bottom of the enclosure. One wire cover required per door. Made of heavy gauge steel and powder coated white.

Filler Plates

Designed to provide additional mounting surface between sub-panels or sections of a modular enclosure. Slotted mounting holes allow flexible installation. Made of heavy gauge steel. Panels are powder coated white.
