

Duratec™ FB

Made from carbon steel with a flexible back, Duratec™ FB is ideal for economical cutting on easy-to-machine ferrous or nonferrous metal and wood.

Features:

- ▶ Flexible carbon steel back.
- ▶ Wide range of widths, thickness and pitches.

Benefits:

- ▶ Ability to be run at higher band speeds.
- ▶ Economical general purpose cutting.
- ▶ Ideal for both contour & straight cutting.

Applications:

- ▶ Wood, plastics.
- ▶ Nonferrous foundry materials.
- ▶ Low alloy and nonferrous metals.
- ▶ Furniture, composition board.
- ▶ Light vertical and horizontal machines.
